

### Remarks

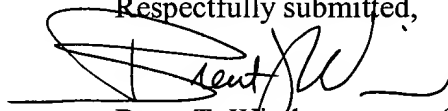

This response is being provided after a final rejection of Applicant's claims has been made (as per the office action dated October 8, 2003). Therefore, Applicant is concurrently making herewith a Request for Continued Examination (RCE).

Although Applicant respectfully disagrees with the rejections made in the October 8<sup>th</sup> office action, Applicant has cancelled all previously pending claims in this case and submits new claims 65-71 for consideration. It is noted that these claims were previously submitted in this application as claims 35-41, but were refused consideration in the office action dated June 3, 2002, as being drawn to a separate invention.

It is believed that the newly added claims should make the rejections made in the October 8<sup>th</sup> office action moot. It is also believed that these claims find support in the specification, and are not new matter. Should the Examiner wish to discuss any issue regarding this response, Applicant invites her to do so by telephone conference.

Dated this 7<sup>th</sup> day of April, 2004.

Respectfully submitted,

Brent T. Winder
